NARRATIVE

On 6/16/09, while Officers where conducting a search for a subject in the Marseille Drive area (see I/O reports 200903525 and 200903527) we were notified by dispatch that there was a male subject looking through a window at 130 Margeaux Drive. Immediately, all patrol units responded to the area. I was first to arrive at the residence and spoke with the victim, Charlotte Potts, and her husband. Her husband stated to me that he had heard noises outside of his residence and thought there was a storm. He stated that while still inside, he observed a subject outside looking in his bathroom on the north side of his residence. He stated that he yelled at the subject to get off his property, and at that point the subject fled. He was unable to provide a detailed description of the subject due to the opaque nature of the bathroom glass, but felt the subject was a white male. A canvass of the area was conducted by all patrol personnel. Sgt. Collins, Cpl. Ivey, K-9 Razor and myself conducted a foot search on the golf course behind Margeaux drive. All of these efforts yielded negative results. There is nothing further at this time. Ofc. Chris Podawiltz 783.
